

Greetings!

Maximize the beauty and efficiency of all your deck building projects by using the new **INVISIDECK® HIDDEN SCRAIL® SYSTEM**, the latest advancement in deck fastening technology from Fasco America Inc.

Creating flawlessly smooth deck board surfaces with less time and labor is sure to make your decking projects successful this summer. The **INVISIDECK®** system delivers clean decking surfaces without visible screw heads for grooved board applications, letting just the beauty of the deck material shine through.

Your customers will be delighted with the look, and you'll finish so quickly that you might even have some time left over to relax on your own deck for awhile!

Take advantage of our popular **INVISIDECK®** bundle promotion, now extended through August 31st to help you make the most out of the Summer building season.

Call 800.239.8665 today to be connected to you local authorized dealer.

**YOU SEE THAT YOU'LL SEE
NOTHING AT ALL!**
